A NEW NEIGHBOURHOOD INSPIRED BY THE HERITAGE AND CHARACTER OF NORTH NORTHAMPTONSHIRE

Rockingham Castle Estate, Great Oakley Estate, and experienced house-builders Barratt Homes and Taylor Wimpey are seeking views from the local community on the next step towards delivering the long-anticipated West Corby Sustainable Urban Extension.

Our exciting proposals for a sustainable new neighbourhood will provide much needed homes, community facilities, job opportunities and green spaces.

The site at West Corby has been allocated for development since 2008 and received Outline Planning permission in 2019.

We now want to hear from the local community as we develop our plans for a sustainable new neighbourhood to the west of the town. Visit westcorby.com to share your views.
